LIMITED, PROSPECTUS.

THE STOCK, SHARE & DEBEN-

TURE INVESTMENT CO.

1.—This Company is formed for the purpose of trading generally in Stocks, Shares, and Debentures, of Dividend-pay ing Companies (and Dividend paying Companies only) established or doing business in the Straits Settlements, Hongkong, China and Japan. Mining and Planting Companies, whether dividend-paying or not, are excluded from the scope of the

Company'a operations. 2.—The Capital of the Company is fixed at 8975,000, divided into 19.00) Ordinary shares of \$50 each, of which \$25 will be called up (\$5 on application, \$10 on allotment, and the remaining \$10 as may be required, but not until aix mentles from date of allotment) and 250 shares, to be called Founder's shares, of \$100 cach, to be fully paid up on application. .

Applicants for Founder's shares must be prepared to take up not less than 76 Ordinary shares for each Founder's share allotted them, or, at their option, to underwrite that number of Ordinary shares if they do not care to take them, tirm. 3.-Founder's shares will not be entitled in any year to any dividend until Ordinary shares have received 8 per cent on the amount paid up on each share. After payment of an 8 per cent dividend on Ordinary shares, and after any provision that it may be deemed advisable to make for a Reserve Fund has been made, the halance of munics available for distribution will be divided into two equal parts, of which one will be divided among the holders of Ordinary shares and the other among the holders of the Founder's shares. The Holders of the Founder's shares will be interested in the surplus assets of the

to holders of Ordinary shares, one half to holders of Founder's shares, after repay ment of the subscribed capital 4.-The Head Office of the Company will be in Hongkoug, with branches of Agencies in other ports and places in the East as may be deemed most advantageous.

Company, in the event of its being wound

up in the same proportions-i.e., one-half

and in London. 5.—The business of the Company will be conducted in Hongkong by a Board of Directors, consisting of not less than three nor more than five, of whom one shall be Managing Director and Chairman, with a Secretary (Adam Lind) and a competent European staff. No fees shall be payable to the Directors, except the Managing Director, in any year until holders of Ordinary shares have

paid up on their shares. The first Directors are-H. W. Dick, Managing Director a Chairman.

G. S. Coxon. E. H. Melbve.

Who shall hold office until the first annual meeting to be held in the year 1892. 6 .- With a paid up Capital of \$500,000, a reserve liability of \$475,000, and a select body of shareholders, this Company may reasonably hope to be able to carry on the soundings in the immediate vicinity, operations to the extent of from three to vary from 19 to 25 feet. five millions of dollars, obtaining from local Banks and financial institutions facilities ward of this Buoy. that no individual dealer or firm could command, and affording, in turn, to these institutions, guarantees and securities they

could not well obtain elsewhere. 7.—Reasonably handsome dividends on the paid up capital may be secured by simply inevesting in, and holding, carefully selected local dividend-paying Stocks, purchased at the favourable moment. Trust Companies in England formed for the purpose of such investments have been almost uniformly successful. Had such a Company existed in Hongkong twenty years ago, the average return on investment made then would now be about 17% per cent on the money originally laid out, and the increase in value of the Stocks purchased

would average about 140 per cent. New Companies are likely to be formed here from time to time for a variety of purposes, and there is no reason to suppose that investments made in their shares in the carly stages of their bistory as dividendpaying Companies, may not, in the course of years, shew as handsome profits, and as vast increases in value as any known in tho past. The Stocks and Shares of existing

Companies shord also, on occasions, favourable opportunities for investment, 8. -It will form no portion of the business of this Company to float new Companies, underwrite shares, or invest or deal in anything but the Stocks. Shares and

Debentures of the enterprises indicated in paragraph 1. 9.—Profits, and considerable profits, may, it is believed, be made by the purchase and sale from day to day of local Stocks. Shares and Debentures of the descriptions

The value of Share property in Hongkong s very great, so great that even with the facilities afforded by the Banks, the purely speculative dealers are unable fairly to grapple with the situation and afford to the many holders adequate outlets. There are few or no permanent investors in the Colony, and there are therefore great and frequent fluctuations in values. The ever-changing nature of the population is constantly throwing shares and stocks upon the market, quite apart from the operations of speculative dealers, and thus very valuable opportunities are constantly being offered to buyers with capital at command.

The Company will, it is hoped, not merely secure reasonable profits for its shareholders, but will confer a benefit on the shareholding community generally by steadying the local markets and ensuring them against violent fluctuations. 10. - Considerable profits may also be anticipated from the employment of a portion of the Company's resources in 'Cash and Time dealings in shares, identified by numbers or otherwise, and deposited in the hands of the Company or with its Bankers. Those acquainted with this class of business in Hongkong and Shanghai are well aware of the heavy rates of interest paid in respect of such transactions, and will see what an opening exists for a business as ente as it is profitable. 11 -Between the Head Office in Rongkong and the London Branch or agency.

useful business in the nature of 'Arbitrage,' now growing into importance, may be transacted. 12.-In one or all of the forms of business indicated in the proceding paragraphs, it is anticipated that handsome profits in vy be made, and by a judicious admixture and selection, it is believed that a s, fo as well as a profitable business may be carried on.

Intimations.

13. - There is no promotion - money payable to anyone. All the preliminary expenses for floating and registering the Company are borne and paid by the Founders. No Founder's shares have been reserved by the Promoters or given away. freed from the obligation to take or under-

write 76 Ordinary shares. 14. Subscriptions are, in the first instance, invited for 100 Founder's shares of \$100 each. Each applicant for a Founder's share must apply for or underwrite at least 76 Ordinary shares, and must nudertake to bear his proportion of the preliminary expenses, which cannot possibly exceed \$10, for each Founder's share.

15.—There are no agreements or contracts of any description entered into by the Company or by the Promoters, Directors or Trustees thereof, except the arrangements with reference to the subscription for the Founder's shares, which may be Contracts required to be set out under the provisions of 'The Companies' Ordinances, 1865-1886. Applicants for shares will be desined have waived all right, whethe under the Ordinances or otherwise, to notice of the particulars and dates thereof and names of

the parties thereto. 16.—Application for shares should be made on forms to be obtained from The Hongkong & Shanghai Banking Corporation, on application, and should be forwarded to The Hongkong & Shanghai Banking Corporation, and a sum of \$110 in respect of each Founder's share applied for, and of \$15 in respect of each Ordinary share applied for firm should be paid into The Hongkong & Shanghai Banking Corporation to the credit of the Company's Account. 17.—If no a lotment is made, or a less number is allotted than applied for, the deposit will be returned in full or pro rata, as may be, with interest at the rate of 2 %

per annum. The \$10 paid in respect of each Founder's share allotted will be applied exclusively in payment of preliminary expenses, and the balance unexpended will be returned. The Subscription for Founder's Shares will CLOSE on the 10th JUNE PROXIMO, and Subscriptions for ORDINARY SHARES not taken up by the Foundar's will then be

advertised for. Hongkong, May 30, 1891. NOTICE TO MARINERS, No. 14 (SPECIAL).

d: Rent of office as above, ... --- directors to favour me with a cheque on to come. It was long before Mr Roza came | Mr Robinson said that offer was made 341.15 account, say \$360. P.S. You will remem. that I spoke to Mr Barette about the rent. The chief items in the first account are: 2 journeys to Canton with Directors, \$112; plans for Hotel on Ice House Plot. \$150: Fees in connection with altering the Concordia Hall, \$120. With respect to this account the plaintiff contends that it has been accepted by the defendant Company, whilst the Company states that it had never been accepted, and if accepted, it was so in full satisfaction for all services

rendered and to be rendered up to the opening of the Hotel. The evidence on this disputed point is as follows :- The plaintiff on the signing of the contract for the necessary alterations to Concordia Ball sent the following letter to Mr Barretto. the Secretary of the Company :- '27th Sept., 1889. - As it is customary to make contract, I have now the pleasure of inclosing herewith a memo, of the same. The account as sent in with that letter amounted to \$650; \$310 having been charged for plans for the Hotel on Ice House Lot. Against this itum Mr Hancock had placed an asterisk, and at the bottom of the account had written: 'This is the schedule charge I am entitled to make. but I propose to reduce the same by \$100. making the total charges \$550.' This account was duly submitted to the Board of Directors. Mr Fraser Smith says that this account had been brought before the Directors and thrown out by the board. They objected to the item of \$310 for work not done. Mr Hancock and Mr Pitman came to his office one afternoon and after some conversation about Mr Hancock's right to make this charge, he Mr Frager Smith said he thought Mr Hancock had taken a great deal of trouble in the matter and that if Mr Hancock would reduce that item to \$150 he was prepared to recommend to the Board to pay this bill. provided it was understood that this payment of \$490 should cover all the charges in connection with the Hotel up to its open-

ing, that he was ready to recommend this to the Board, that the \$150 was not in substitution of the \$310 but they wanted to pay Mr Hancock \$490 and get rid of all his charges. Mr Fraser Smith said he never made any recommendation to the Board. Mr Rodyk says that the Directors objected to the whole of the bill of \$550. Mr Barretto, who was Secretary to the Company, says, that the Directors strongly objected to the account of \$550. Hancock said that after he had sent in his account he had an interview with Mr Fra er Smith, who asked that the item of \$310 be reduced to \$150 as the work had not been done and as he was doing other work for the Board : Mr Fraser Smith told him that the Directors had approved of the account subject to the reduction above mentioned. No other items in that account had been objected to. Mr Hancook, on being recalled, said that there was no condition attached to his acceptance of \$490, that he would not have accepted this amount in payment of

connected with the case. I am inclined to receive Mr Hancock's version as the correct one, the more so as Mr Smith's recollection of what took place in reference to the plans for which the sum of \$310 had been charged is evidently at fault. Mr Smith in his evidence says: 'Mr Hancock inspected the site in Company with Mr Pitman and myself, and without any heaitation whatever Mr Hancock came to the conclusion that it was not a fit place for an Hotel. There were no plans furnished for the Hotel. I have never seen or heard of any plans in connection with the Ico House site. He was not asked to prepare any plan because as soon as he saw the place he said it would not do for the pur-Mr Frager Smith's attention was

to in respect of the Concordia Hall.' It

prepare preliminary plans for the Hotel to be built on the said ground, and plans accordingly to be submitted with all possible despatch. Mr Fraser Smith also objected to the charge for the plans for the annexe. He said 'for the annexe we received no plans, 'I have not seen any plans for the annexe,' whereas Mr Hancock in his letter of the 12th November 1889 says he sends berewith plan and tender for 1 the annexe and servants quarters, and the reception of this letter and of the tender is mentioned in the minute of the meeting of the directors of the 19th November. Mr Fraser Smith being present at that meet-

ing. Mr Rodyk one of the Directors, savs that preliminary plans were asked for building on the Ice House plot. Such is the contradictory parole evidence respecting the acceptance of this first account. I will now consider the written evidence. As we have seen already Mr Hancock sent in his account on the 27th September 1889; on the -16th October the Secretary wrote as follows Dear Sir. - As the Directors require a little more time to consider the different items in your account made up to the 20th ulto. for \$550, I am directed to inform you Oct. 6th, Expenses of visit to Canthat should you require any payment on

account of the same they will be only too pleased to send you a cheque. Regarding the fittings required as per your letter of the 15th inst. they are of opinion that if possible, the articles should be obtained Dec. here.' The interview with Mr Fraser Smith took place on the 15th November, and on the day after Mr Huncock sent the following letter to Mr Baretto :- 'Dear Mr Barretto, --- Adverting to your favour of the 16th ultime respecting my a/o against the Jau. > WHAT A COLONIAL GARRISON MEANS.

The Singapore Free Press of 26th May

"The garrison of the Coaling Station at :-Sing pore is never Colonial except on the day it has to be paid for.' This we have written before in connection with the question of the respective pecuniary responsibilities of the Colony and of the Imperial Government now being, we hope, well hammered out in London by the special Negotiations with their creditors having Committee of the Straits Association who aspect, the sentance with which these observations are introduced, in precisely appropriate and accurate. The daybirthday of Her Majesty. But the Colonial garrison-which according to the Secretary of State is only here for purely local purposes, and only to protect. the large stores of coal which our trade requires,' and has nothing earthly to do with Imperial purposes or naval base protection, -is, very strangely, independent altogether of the Colony that hires its services. It is a very paradoxical position: Either the Governor and Commander-in-Chief of the Colony is the real head of the Colonial garrison; or the garrison is not Colonial at all, but Imperial, and is not at the disposal of the Colonial, but of the Imdiscussion clears up the ambiguity. The General Commanding does not choose to hold a Birthday Parade in the presence of H.
